Dr. Bradley Borum
Indiana Utility Regulatory Commission
PNC Center
101 West Washington Street
Suite 1500E
Indianapolis, Indiana 46204

Dear Dr. Borum:

Duke Energy Indiana, LLC ("Duke Energy Indiana" or the "Company") hereby requests an extension of time to submit its 2021 Integrated Resource Plan ("IRP") pursuant to 170 IAC 4-7-2(b) from November 1, 2021 to November 30, 2021.

Duke Energy Indiana has experienced IRP modeling issues due to certain of its modeling inputs and more complex assumptions. Because of these issues, the Company's modeling efforts are behind where the Company would like to be. Duke Energy Indiana believes that it is close to resolving the issues with its modeling input data and can soon resume its stakeholder process. It is important to the Company that our stakeholders have adequate time to review and evaluate our modeling inputs and results. This proposed delay will allow Duke Energy Indiana the time to continue to share information about its IRP modeling with stakeholders and receive their valuable feedback.

Thank you for your consideration of this request. If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Elizabeth A. Heneghan". The signature is fluid and cursive, with the first name "Elizabeth" and last name "Heneghan" clearly legible.

Elizabeth A. Heneghan
